

David

I have no problem with the costs been broken down and transparent. Please just consider the efforts made to maintain the CCTV network and that your parking enforcement team has double the amount of consoles to the public safety CCTV control room, which leads to general wear & tear of the system.

An SLA in this area will inevitably be fairly technical. We have therefore asked to meet with you to produce a draft. Your costs will have to be broken down and transparent.

Thanks

David Taylor
