**Subject:** RE: Bus lane audit

The possible 3x Bus lane we identified that could possibly be taken out do not have CCTV coverage over them. **No financial loss there from that respect at this time.** They would not be busy in my view anyway. One of them has Ambulance's parked at its start in Goldhawk road for many years while they park their private cars on the Ambulance forecourt. Not far from Stamford Brook station. They claim exemption.

Regards

If there are any financially important changes please do them and then we will find the funding. If we are looking to take lanes out please include the income in the business case
